ABOUT ME

I'm Diogo, a 25 years old Web developer, from Portugal.

I started learning programming when I was 16 years old, when I took my first course in programming and computer systems. During my journey I went through some languages like php, python, C, C# and javascript. But over time during my first job I started to learn more about javascript and typescript and quickly started to love it and I decided that it was the languages I wanted to focus on and specialize. I've been studying front-end development full-time since then, and in my current job I'm focused on those same languages. Always want learn more, do more and be more. I also firmly believe that we should never settle down.

I'm hard working, super curious, passionate, committed, and also a fast learner!

TECH STACK / SKILLS

HTML5 - CSS3 - JAVASCRIPT - SASS - WEBPACK - REDUX
WEB COMPONENTS - STYLED COMPONENTS - FIREBASE
MYSQL - REACT JS - ANGULAR - REDIS - JAVA - NODE JS
OPENSHIFT - JENKINS

EDUCATION

2016 - 2019
Degree in Computer Engineering
ISTEC, Higher Institute of Advanced Technologies, Portugal
